SUBJECT: Participation in CERAMITEC 2022

To our dear future customers and clients.

The Bongioanni Macchine management decisions have given absolute priority to your and our security, this in function of the complex situation created by the global pandemic of covid19. Thus, protecting both visitors and exhibitors.

These decisions, you will understand are not favourable to the commercial needs of the company and have unfortunately conditioned us in recent years due to the restrictions imposed on our activities.

The change in the world market in recent years has brought out new difficulties, to be faced all together: relatively enormous increases in the costs of raw materials, transport and great difficulties in materials finding, especially in the electric sector, also due to political relocation strategies.

These reasons led us to decide not to participate in this edition of the CERAMITEC 2022 fair in Munich.

Throughout this time, however, we have always remained in contact with our customers without ever neglecting their needs. Indeed, we will say that we have managed to pass this difficult period with an increase in turnover, thanks to the loyalty and esteem relationship with our customers all over the world.

Bongioanni Macchine has used these last two years to study and test innovative solutions; and will continue to do so, that the next public appearance will surprise you with interesting patents useful for reducing and optimizing personnel, improving equipment efficiency, and increasing safety in the workplace.

At the same time, we have carried out a great modernization of our two workshops in via Macallé and via Salmour, optimizing and automating the production processes more and more in order to ensure our customers an ever-higher quality of our products.

Our communication channels for requests for machines and spare parts are always available to everyone.

Sure, of your understanding and while remaining at your disposal to always satisfy your requests and needs, we greet you, wishing your health, well-being and certainly to see us at the next event.
